Title

iTalk Toastmasters Club Meeting

Summary

iTalk Toastmasters helps its members learn the art of speaking, listening and thinking – vital skills that promote self-actualization, enhance leadership potential and foster human understanding.

Description

Speaking to a large or small group, or even one-to-one, may intimidate or frighten you. In Toastmasters you will learn how to successfully formulate, express, and sell your ideas and yourself and get rid of that nervousness you feel when called upon to speak. You will improve your ability to listen to and evaluate other people's ideas, and you will learn leadership skills along the way. The Club meetings are workshops where you study and practice communication and leadership skills with others who are there for the same reason as you. During Club meetings you will build "quick thinking" skills as you give one-to-two minute speeches on general subjects during Table Topics. You will introduce speakers, conduct meetings, and perform other roles that give plenty of practice in a variety of communication experiences. The greatest learning comes from preparing and presenting speeches based on the projects in the Communications and Leadership program manual.
